**A. Main changes to the general part of the prospectus**

- The definition of “*Business day*” in the “Terms with special meaning” section of the prospectus has been updated as follows, in order to provide additional clarity on the fact that it could potentially refer to several countries: “*Any day that is a full business day for banks in Luxembourg, except 31 December. In Fund Descriptions section, any day that is a full business day for banks in the indicated country or countries.*”
- The “Acceptable collateral” section of the prospectus under the section “How the Funds Use Instruments and Techniques, Collateral policies” has been updated to include: “*liquid assets, including cash, short-term bank certificates, money market instruments and letters of credit or demand notes from a first class credit institution not affiliated to the counterparty*”.
- With respect to the revenues of the funds arising from securities lending operations, it has been clarified under section “How the Funds Use Instruments and Techniques, Collateral policies” that “*funds will normally retain 77% of the revenue from any lending of their portfolio securities and the lending agent 23 %.*”
- The securities lending mentions under section “Disclosures of usage and fees” have been amended for simplification purposes.

**B. Funds changes**

The following clarifications have been introduced to the funds’ descriptions sections. These changes have no impact on the way the funds are currently managed, the funds’ distribution policy, benchmark use, investment policy, risk profile, or the subscription, switch and redemption order process:

- **Investor profile**
  - The Investor profile section wording has been harmonised across funds, notably to ensure “long term” is systematically used for funds, which investment horizon is at least 5 years or more.
